

# Transform Your Boring Bio From Wallpaper to Wow with Nancy Juetten

# Important Questions for Today

- ❏ How many potential clients visited your website in the last year, read your bio, and never called?
- ❏ How many hot prospects read your online profile, bio, or “about me” story and still didn’t understand exactly how you could help them?
- ❏ And how many tuned out immediately because you took too long to make your point, offered “alphabet soup” that they didn’t understand after your name, used too much industry jargon, or showcased any one of five other common mistakes?

# More Important Questions

- ❏ What are these mistakes costing you in lost opportunities?
- ❏ And how much longer can you afford to wait before more of your perfect prospects slip through your fingers because your bio is more of an obstacle than a full-speed-ahead green flag to proceed and make big impact in your business now?
- ❏ Today is a GREAT day to take action to correct any missteps that may be standing in the way of your opportunities to serve more people to benefit from your brand of brilliance.

*"It takes as much energy to wish as it does to plan."* –Eleanor Roosevelt

I am fiercely committed to guiding busy working professionals, especially women, to achieve confidence and peace of mind around money so they can focus on what they want to achieve in life. If you're looking for a proven professional who can guide you to answer questions like these, you've come to the right place:

- Are you saving enough for retirement?
- How about college?
- Are your investments working as hard for you as they should and are they being managed effectively and efficiently?
- Can you afford to work in a less lucrative career and be happier?
- Are you and your spouse or partner on the same page about spending and saving (and, if you're not, how can you find agreement)?

With almost ten years working with amazing clients with similar worries and concerns and guiding them to achieve remarkable success, my mission and commitment is to help you develop a clear vision for your life and then educate and empower you to make smart financial decisions to make that vision come true.
